

Prof Osvaldo Loquiha

Biostatistician/ Assistant Professor at
Universidade Eduardo Mondlane

**Co-Principal Investigator
Country Lead (Mozambique)**

QUALIFICATIONS

MSc and PhD in Statistics

BIOSKETCH

Prof Osvaldo Loquiha is a Mozambican biostatistician with extensive experience in statistical modelling for public health, clinical studies, epidemiological surveillance and biomedical research.

His work spans advanced modelling, geospatial analysis, and the design of analytical frameworks for HIV, infant and maternal health, epidemiological surveillance and health systems strengthening.

As a faculty member at Universidade Eduardo Mondlane, Prof Loquiha plays an active role in building modelling capacity in Mozambique and the broader Sub Saharan region.

He has led analytical components of multi provincial health studies, supervised postgraduate research, and supported national health programmes through evidence based insights.
